DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ashley Pezzner, Reg. No. 35,646 on 11/17/2009.

The application has been amended as follows:

Claims 14-15,18,20,23-25,27 and 28 have been canceled.

Within claim 6 in the last two lines the recitation " in hair cosmetics" has been deleted and replaced with "wherein the cosmetic composition is a clear gel".

Within claim 12 line 2 the recitation "which" has been deleted.

Within claim 16 line 1 the number "14" has been deleted and replaced with the number "6".

Within claim 17 line 1 the number "15" has been deleted and replaced with the number "6".

Within claim 19 line 1 the number "18" has been deleted and replaced with the number "12".

Within claim 26 line 2 the recitation "which" has been deleted.

Reasons for allowance

Art Unit: 1618

The following is an examiner's statement of reasons for allowance: the cosmetic composition in the form of a clear gel which comprises the copolymer claimed in the specific amounts is not described or obvious from the closest prior art which is deemed to be Hossel (US 2001/0021375 A1) cited previously. Hossel does not describe a range within the claimed monomer amounts and Hossel does not describe the manufacture of a clear gel. From applicants specification at page 36, first table from the top of the page, compositions with a copolymer containing monomer units in amounts slightly outside the claimed range (such as a,b,d,e) resulted in cloudy systems. The table also showed that amounts within applicants claimed range (g-l) were clear demonstrates the unexpectedness in the optimization of the amounts of the three monomers. Given that Hossel does not disclose any recitation of the compositions clarity there would be no reason to modify the claimed monomer components within applicants claimed range to provide a clear gel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
